

We are the connection

SEFE fiber optics

Connected nationwide:

The fiber optic network from SEFE.

- Decades of experience in fiber optic technology
- Marketing of a Germany-wide fiber optic network (approx. 8,500 km)
- More than 220 locations for your individual transmission technology, technology locations made of concrete
- Numerous connections and coupling options to other network operators
- Secure network infrastructure through buried joints
- Around-the-clock monitoring and service, regular aerial surveys of the routes
- Project implementation as one-stop shopping
- Participation in broadband expansion in the area

We will be happy to send you detailed route sections on request:
